TEN AI AGENTS, ONE SUBSCRIPTION

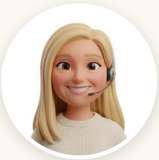

Ten agents, ten names. Six come on every plan.

OUTBOUND

Danielle, Sales

Calls your leads and runs your video meetings. Handles objections from your script, follows up until they answer and transfers hot prospects to your closers live.

INBOUND AND EVERY CHANNEL

Mary, Customer Service

Picks up every inbound call and chat, day and night, on phone, SMS, email and social. Books, reschedules and hands off to a human when it matters.

YOUR WEBSITE

Alice, Live Chat

Greets every visitor, answers their questions, qualifies them in real time and books the meeting while they are still on the page.

ON EVERY PLAN

Three more on every plan.

FOLLOW-UP

Bobby, SMS and Email

Writes and sends the texts and emails that keep a prospect warm, replies when they write back and stops the moment they book.

FACEBOOK AND INSTAGRAM

Mike, Social Media

Creates and schedules your posts, drafts blog posts with pictures for your approval, replies in your voice and turns a DM into a booked meeting.

ACROSS THE WHOLE APP

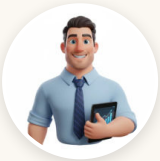

Walt, Business Coach

Knows your deals, contacts, emails and pipeline. Ask Walt anything and get a straight answer, plus a score and notes on every call.

PRO AND UP · AI SALES MANAGER

Bruce runs your sales.

Six of the ten agents come on every plan. Four are premium: Bruce, Larry, Max and Theo.

AI SALES MANAGER

Bruce

Listens to every call your agents make and take, finds what is losing deals, rewrites that part of the script and tests it. The winner stays.

Weekly report | A/B tests | Answer-rate watch

- **Pro:** a weekly report on what is losing deals, with the fixes.
- **Pro:** A/B test your offer and opening line.
- **Pro:** a weekly pipeline report and answer-rate watch on every number.
- **Enterprise:** Autopilot. He makes the fixes and tests them for you.

You approve the voice and every word of the script before a single call goes out.

ADD-ON AND ENTERPRISE

Larry, Max and Theo.

ADD-ON · AI OFFICE MANAGER

Larry

Calls suppliers for prices and dates, books the inspection, chases paperwork, drafts replies to your important email and sends a morning brief. You approve every call and every send.

Larry is an add-on on any plan, from $247 a month with no setup fee. Enterprise includes Larry light: a morning brief and your important email drafted.

ENTERPRISE · DEMO SPECIALIST

Max

Takes the demo Danielle booked and walks the prospect through the product on a live video call.

ENTERPRISE · INBOX SCANNER

Theo

Reads the scans, photos and paperwork sent to your inbox and keeps the notes with the right contact.

Will people know it is an AI? Yes. Your agent says it is an AI assistant and that the call is recorded. You approve the voice and every word first. **Can it answer everything?** When it cannot, it says so and a person follows up. No invented answers.
